

Lawn Primary School

Adam and his A.M Sports staff have been involved in delivering lunchtime support, afternoon intervention and after school clubs here at Lawn since 2019. Adam is extremely good at liaising with me as PE Lead to ensure that we are always getting the best out of his coaching company. He is great at ensuring that his staff are working to the best of their capabilities and will monitor this continually to ensure that a high standard is maintained.

This academic year, we have tried to provide specific children with intervention to support fundamental skill development and Holly has been really good at identifying areas where the children are struggling and focusing on that during her smaller sessions. They have also adapted really well to the changes that have had to take place due to COVID – 19 and haven't been pushy at all when school have had to stop using them for a period of time due to increased risk, showing that they always do what's best, despite the impact that this might have on them as a company.

Adam and I have worked together to ensure that a range of after school clubs have taken place for a range of different year groups and ensured that they are enjoyable.

The staff always conduct themselves in a professional manner.

It is without hesitation that I would recommend A.M Sports as a coaching company.
