Letter of recommendation

Since working with A.M Sports, we have been able to offer high quality breakfast and afterschool clubs. Children have attended football, cricket, boxing and gymnastics and have thoroughly enjoyed them-they are so popular we have waiting lists. All sessions are well planned and every coach is diligent in taking registers and seeing children go home after school.

An adult boxing club was requested by parents. A.M Sports delivered this and built positive relationships with them.

Coaches have also worked alongside class teachers as part of the staff's CPD. All the teachers and teaching assistants have found these sessions very valuable and now feel more confident in delivering PE. Formal lesson observations by SLT have shown clear progress in children's attainment and also delivery of lessons. The coaches have also provided assessments at the end of a block of teaching.

We have been impressed with the professionalism of everyone from A.M Sports. Good relationships have been created with all stakeholders. Children and staff look forward to them coming into school.

We have no hesitation in recommending them to other schools.

Yours faithfully
